

Figure E. Descriptive forward patterns; red → social / friend, blue → nonsocial / stranger

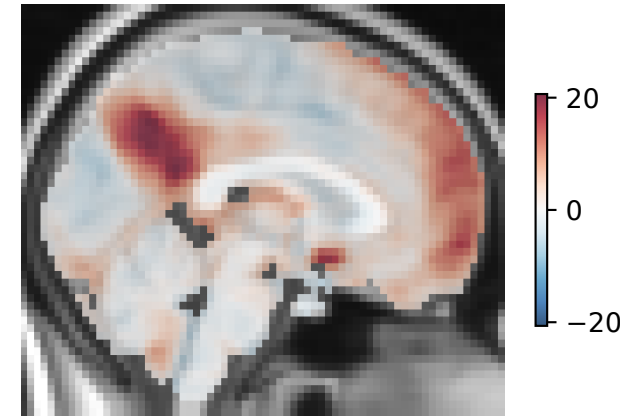

Social context
positive; $x \approx 0$ mm

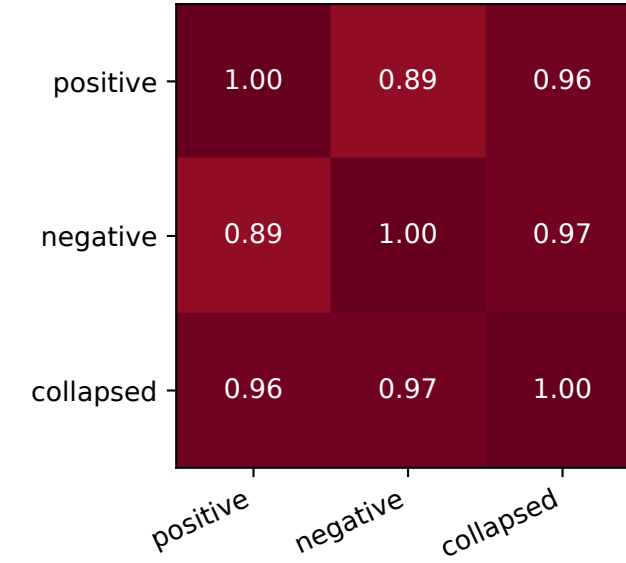

Social context
negative; $x \approx 0$ mm

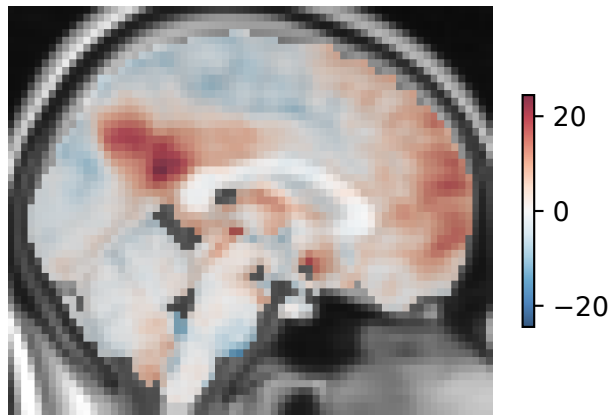

Social context
collapsed; $x \approx 0$ mm

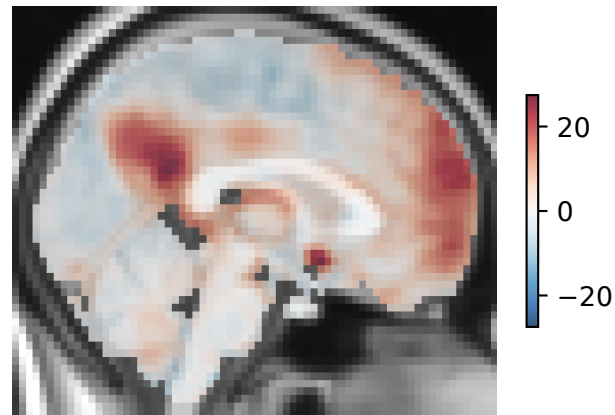

Haufe spatial correlation

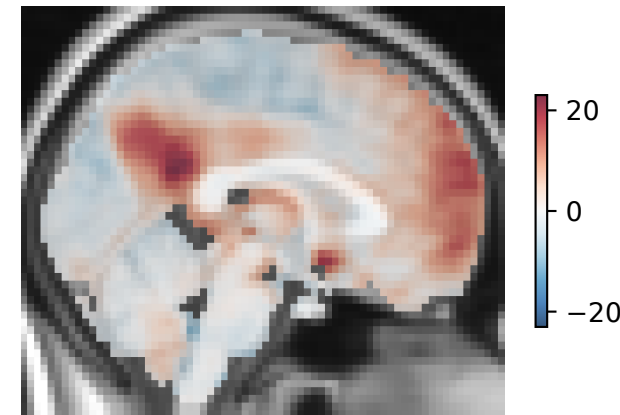

Friend-stranger context
positive; $x \approx 0$ mm

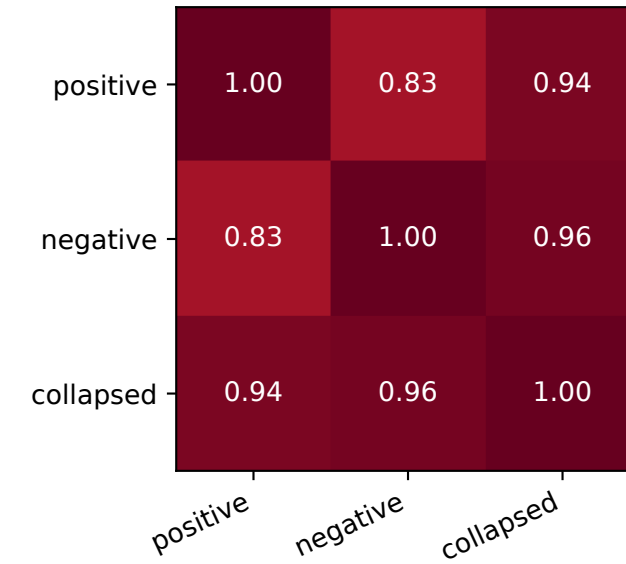

Friend-stranger context
negative; $x \approx 0$ mm

Friend-stranger context
collapsed; $x \approx 0$ mm

Haufe spatial correlation

Unthresholded; standard anatomical background; separate color ranges; no regional significance or necessity implied.
